Subject: Not a complaint about MS. Support for MS.

Hi,

I just wanted to write in and voice my support for Microsoft. Though they may have played unfair and did some stuff people didn't like they did help to unify the industry. To me that is the most important thing they could have done. I don't care if something costs more or doesn't have as many features. What I care about is that I don't have to worry that a web page designed for one browser isn't compatible with another. The best thing that could have happened was someone won the war of the browser. Even better is that the most technologically sophisticated browser one.

Anyway, could you please leave Microsoft alone. I'm tired of my taxes being spent on this crap. I don't mind monopoly practices when they make my life better. (The government is also a monopoly and they make my life better so I don't complain about the government either)

Thank You,
Anthony Skipper
